PROCESS, PharmaTEC and Schüttgut will be presenting the Innovation Award 2010 at POWTECH/TechnoPharm 2010 for the 3rd time. The award will honor the most innovative equipment and processing at POWTECH/TechnoPharm 2010 in the categories of Basic Processing Technologies for Powder and Bulk Material, Plant Engineering and processing Components, Particle/Material Analysis and Characterization, Measurement and Control, Safety and Environmental Technology/Explosion Protection, Filling and Packaging Techniques, Pharmaceutical Technology.

Who can apply?

Only exhibitors at POWTECH/TechnoPharm 2010 can apply for the Innovation Award. The innovations should be displayed and presented at the exhibition stands and should not be older than 12 months. Development projects will not be considered. The innovations must be available for purchase at the time of presentation.

In principle a manufacturer may present more than one innovation. An innovation is considered either a completely new component development, appliance, plant, new type of process or an advancement or improvement which is substantially different to the previous state of the particular technology. Relevant criteria are degree of innovation, quality of the innovation, efficiency and economic viability.

Prizes will be awarded in the following categories:

- Basic Processing Technologies for Powder and Bulk Material
- Plant Engineering and Processing Components
- Particle/Material Analysis and Characterization
- Measurement and Control
- Safety and Environmental Technology/Explosion Protection
- Filling and Packaging Techniques
- Pharmaceutical Technology

How can I apply?

All exhibitors at POWTECH/TechnoPharm 2010 will receive a written invitation to apply. Your application form is part of this pdf file. Please complete the form including your name, address, area of business, contact person and means of contact as well as hall and stand number.
Innovation Award
(maximum 2 A4 pages)

- a detailed and clear description of the new component, plant or process.
- the outstanding advantages and unique selling points of the new development.

For a better understanding of the innovation, the application can be supported with brochures, catalogues, drawings and pictures – separately for each innovation.

Applications must arrive at the editorial office by March 11, 2010. Applications received after this deadline cannot be considered.
We assure you that all submitted material will be handled confidentially.

How will the winner of the Innovation Award be selected?

All applications will be examined and evaluated by a jury. The jury is made up of qualified and knowledgeable editors from the technical journals PROCESS, PharmaTEC and Schüttgut. Preselection takes place in several stages. Contact will be made by telephone to deal with any questions that arise.

Selected companies will be informed and a visit arranged to the exhibition stand on the first day of exhibition (if necessary, in advance of the exhibition). A person familiar with the innovation should be named as contact.

- The award is presented at a special event.
- Extensive reporting in the technical journals from PROCESS, PharmaTEC and Schüttgut after POWTECH/TechnoPharm.

How can I be sure I am there?

Return the completed application form to the PROCESS editorial office by March 11, 2010 at the latest. If you have any questions, please contact Ms Anja Bernard.
